*Customers who protect their new device on the day of purchase get covered immediately. If a customer elects to add coverage after the day of purchase, but within 10 days, they must be enrolled in coverage for 30 days before they can request a replacement device from Fortegra. For customers with used devices on the BYOD program, coverage will begin once the diagnostic has been successfully passed.

**For each approved replacement request, a one-time admin fee is applied. Fees are \$25, \$50, \$125, or \$175 depending on the make and model of your device, and must be paid before you receive a replacement.

Fortegra® is the marketing name for the membership operations of the subsidiaries of Fortegra Financial Corporation. Products and services are provided by ProtectCELL, a subsidiary of Fortegra Financial Corporation. Not all products and services are available in every jurisdiction.
